- Version Control with Git and GitHub.
- Test-Driven Development.

## PROJECTS

### **An E-Commerce Website:**

A responsive e-commerce application built with react and stripe for product checkout.

**Technologies Used** - React, Stripe

**Link:** [Ecommerce-app-link](#)

**Github link:** [Github Repository](#)

**Airtime 2 Cash App:**

The Airtime to Cash app allows users to sell their airtime for cash. It features a wallet, which holds the funds users receive in return for sold airtime and allows for withdrawal of those funds into the user's designated bank account. Other pages include the landing page, login, register, user dashboard, and admin dashboard for the confirmation of airtime transfers by the users. In addition, we added security features such as 2FA to the admin dashboard to secure the admin app in the event that admin credentials were compromised.

**Technologies Used** - React, Nodejs, Express, Sequelize

**Link:** [Airtime 2 Cash App](#)

**Github link:** [Github Repository](#)

**Youtube Clone App:**

A fully responsive youtube clone app using  
React, Materia-Ui and Rapid-API

**Technologies Used** - React, Materia-Ui and Rapid-API

**Link:** [youtube-clone-app](#)

**Github link:** [Github Repository](#)

**Multi Page Website:**

A complete responsive multi-page education/school website using  
HTML, CSS, and javascript.

**Technologies Used** - Html, Css and Javascript

**Link:** [multipage-website-link](#)

**Github link:** [Github Repository](#)

**EDUCATION**

**Kwara State Polytechnic** — HND in Accounting

OCTOBER 2011 - JULY 2013

Upper Credit - Higher National Diploma in Accounting

From Kwara State Polytechnic
