PROFESSIONAL SUMMARY

Innovative Frontend Engineer with 5+ years of experience delivering robust software solutions across the EdTech, FinTech, and ConsumerTech sectors. Certified Agile professional specializing in TypeScript/JavaScript development with expertise in React, Next.js, and modern frontend architectures. Proven track record in performance optimization, cross-functional collaboration, and mentoring junior developers in Agile environments.

SKILLS

- **Languages:** Javascript, TypeScript, Dart
- **Frontend Frameworks**: React.JS, Next.JS, Flutter
- **State Management**: Redux, Context API, Zustand, React/TanStack Query
- **Testing & Perfomance**: Jest, React Testing Library, Performance Optimization
- **Version Control**: GitHub, GitLab, and Bitbucket
- **Methodologies**: Agile Scrum, CI/CD, Responsive

PROFESSIONAL EXPERIENCE

Frontend Engineer (Full-Time) | Max, Lagos, Nigeria

MAY 2023 - PRESENT

- Engineered innovative solutions addressing user experience and infrastructure challenges in collaboration with lead engineers

- Developed and maintained production-ready applications using React, Next.js, and Flutter, ensuring code quality and best practices

- Enhanced website SEO and page performance, resulting in improved Google search rankings and user engagement

- Conducted comprehensive performance and usability testing to optimize speed, accessibility, and cross-platform user experience

Senior Frontend Engineer (Contract) | Aplite, New York, USA

AUGUST 2025 - NOVEMBER 2025

- Implemented modern state management solutions (Context API, Redux Toolkit, Zustand, React Query) for complex application states

- Optimized web applications for performance and scalability, ensuring seamless cross-browser and device compatibility

- Mentored junior developers through code reviews and knowledge-sharing sessions, maintaining high coding standards

- Collaborated with UI/UX designers to transform wireframes into responsive, interactive user interfaces

Senior Frontend Engineer (Full-Time) | Darey.io, London, United Kingdom

DECEMBER 2024 - JUNE 2025

- Architected scalable frontend solutions using modern state management patterns and React ecosystem tools

- Optimized application performance through code splitting, lazy loading, and bundle size reduction techniques

- Established and enforced coding standards through comprehensive code reviews and technical mentoring.

- Developed real-time features using WebSocket and RESTful APIs, enhancing application responsiveness

Frontend Engineer (Full-Time) | SysServe Solution LTD

MAY 2020 - APRIL 2023

- Diagnosed and resolved technical issues, conducting regular testing to maintain site performance and quality

- Designed and implemented user-centric solutions through user flows, process flows, and wireframes

- Enhanced cross-platform accessibility and responsiveness for desktop, laptop, and mobile devices

- Ensured code compliance with industry best practices and maintained web development standards

EDUCATION

Kwara State Polytechnic, Ilorin - *Higher National Diploma*

January 2011 - September 2013

CERTIFICATIONS

Scrum Fundamentals Certified (SFC) - 2022

EF SET English Proficiency Certification – 2022

KEY ACHIEVEMENTS

- Successfully improved website SEO and performance, leading to higher Google search rankings
- Implemented real-time features that increased user engagement and application responsiveness
- Established coding standards and mentoring programs that elevated team performance and code quality
- Delivered multiple projects using Agile methodologies, ensuring timely delivery and client satisfaction
